

BPMN PROJECT 3

The Pizza Collaboration

SUMMARY

This document captures the complex operational workflow of what it takes to actually get a simple pizza order to you, demonstrating

Separation of Entities

Role-based swimlanes

Internal execution (sequence flows)

Cross-boundary communication (Message flows)

Message Payload Annotation

Prepared by Shivani Pareta

Tools used: Lucidchart, MS Word

Query

The primary goal was to draft a standardized, professional digital flowchart of 'The Pizza Ordering and delivering Process' for better visual understanding.

Below is the exported diagram of the finalized The Pizza Collaboration, created with Lucidchart :
